PROFESSIONAL SUMMARY

Frontend Developer fresher with strong expertise in HTML, CSS, JavaScript, and basic React concepts. Experienced in building responsive, mobile-first, and user-centric web applications with clean UI and optimized performance. Hands-on experience in real-world projects, REST API integration basics, Git/GitHub version control, and exposure to AI/ML applications. Actively seeking a Frontend Developer / Software Developer entry-level role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js (Basics),

Languages: Java, Python

Tools: Git, GitHub, REST API (Basics), Responsive Web Design, Deployment Basics

INTERNSHIP EXPERIENCE

AI/ML Engineer Intern – Ecotech Service (Completed)

- Developed an **AI Text-to-Speech Web Application** with interactive frontend using HTML, CSS, and JavaScript.
- Gained hands-on exposure to frontend deployment workflow and basic project management practices.
- Focused on creating responsive UI components and ensuring smooth user interaction.

PROJECTS

Face Recognition Voting System – Python, OpenCV

- Designed a secure voting system using facial recognition to reduce duplicate voting.
- Implemented face authentication logic and basic database integration.

E-Commerce Website – HTML, CSS, JavaScript

- Developed a responsive e-commerce web application with optimized UI components.
- Implemented product listing, shopping cart, and client-side validation.

Flower Shop Web Application – HTML, CSS, JavaScript

- Built a mobile-friendly web application with online ordering functionality.
- Improved user experience through clean UI and responsive layouts.

EDUCATION

B.Tech – Data Science (Pursuing), Meerut Institute of Engineering and Technology

Intermediate (UP Board): **76%**

High School (UP Board): **78%**
